PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1PIc (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Mogilev Petroleum Storage Area is located in the north section of Mogilev (53-55N 030-21E), northeast of the Mogilev railroad station, yards and shops (Figure 1). The installation is served by a rail spur from the rail yard. Urban streets provide access to the area. Mogilev Ordnance Depot is located 1.5 kilometers (km) southeast. The in-

stallation covers approximately 15 acres and contains five POL tanks and 12 small support buildings (Figures 2 and 3).

The area is covered by KEYHOLE missions

Comparative analysis revealed the same general level of usage with no significant changes.
